# We focus on what's best for the customer

# A typical Avanza product team is fully equipped to reach its mission

- Product teams are experts within their domain and have all necessary skills in product development
- The same team innovates, optimises and maintains their product throughout its life cycle
- The team works within a larger area to ensure alignment with overall customer journey, product strategy and goals

# We innovate together with our customers

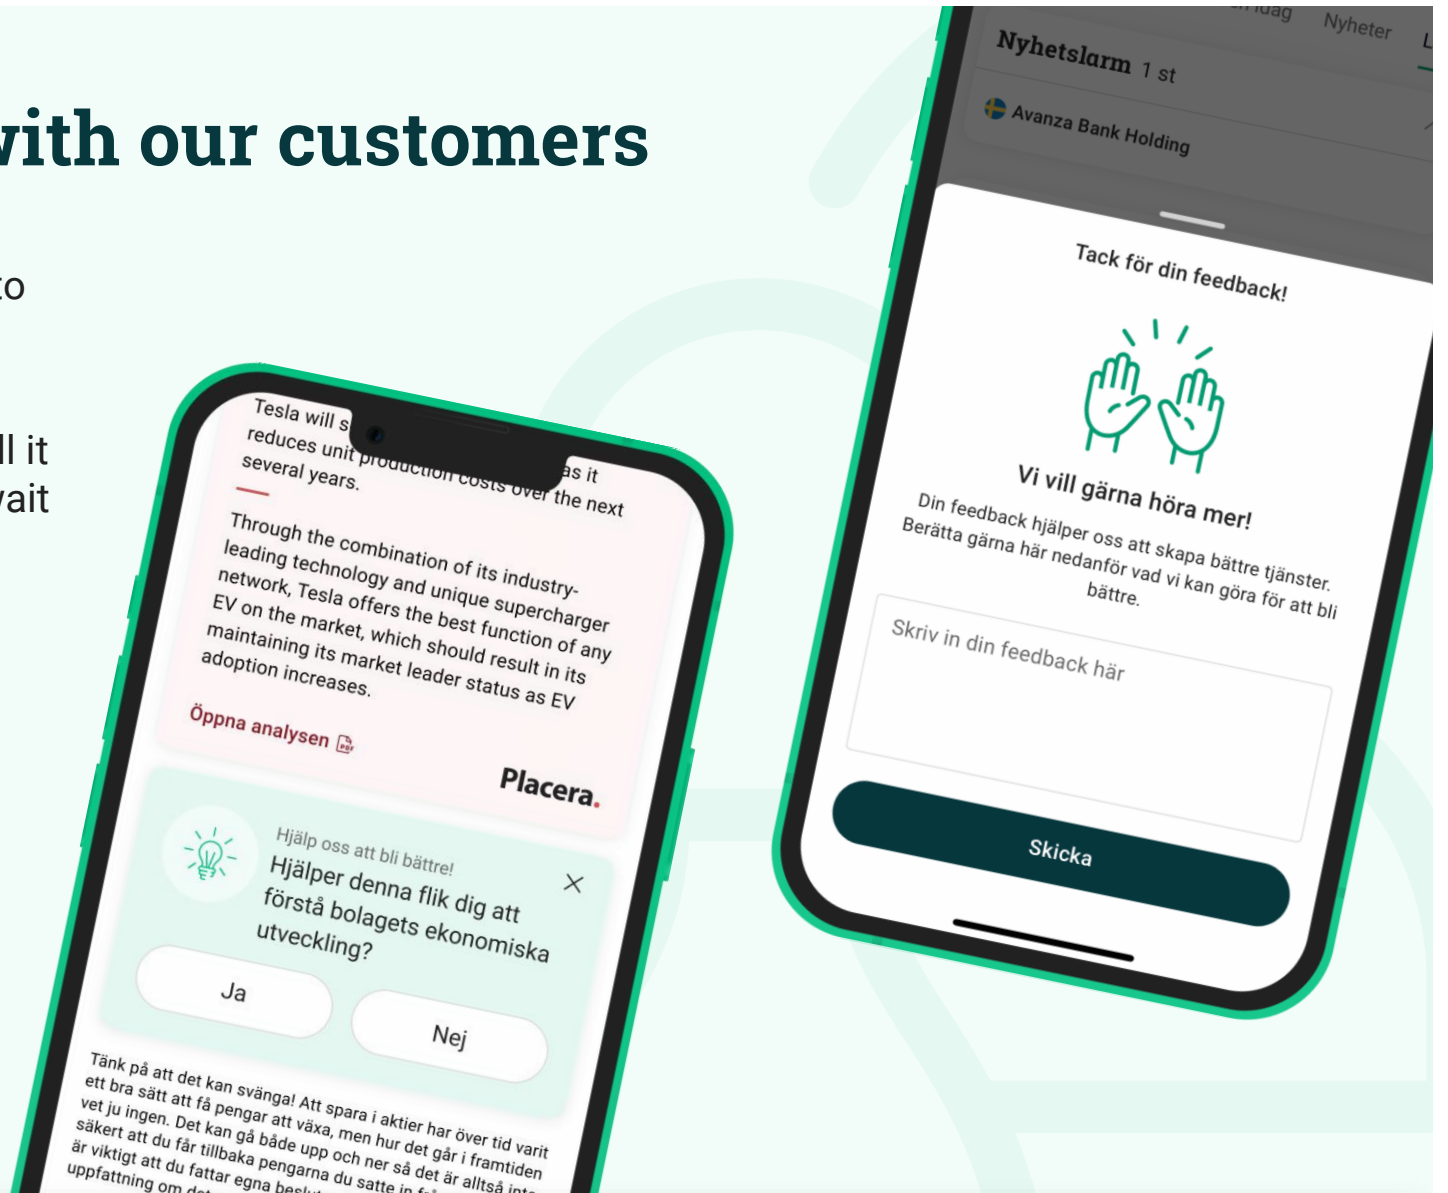

Customers can sign up for beta functionality to become test users of early releases of new features and provide feedback.

When we release a new feature, we initially roll it out only to a limited number of customers, await their feedback and make improvements accordingly, before releasing it broadly.

Our “feedback buddy” system also keeps our product teams close to the customers.

We work systematically with A/B testing, sharing insights between all product teams.

We also meet with hundreds of customers for interviews and user tests each year – and conduct surveys to understand our customers’ needs.

# World-class user experience

It is in our DNA to constantly make improvements for the benefit of our customers.

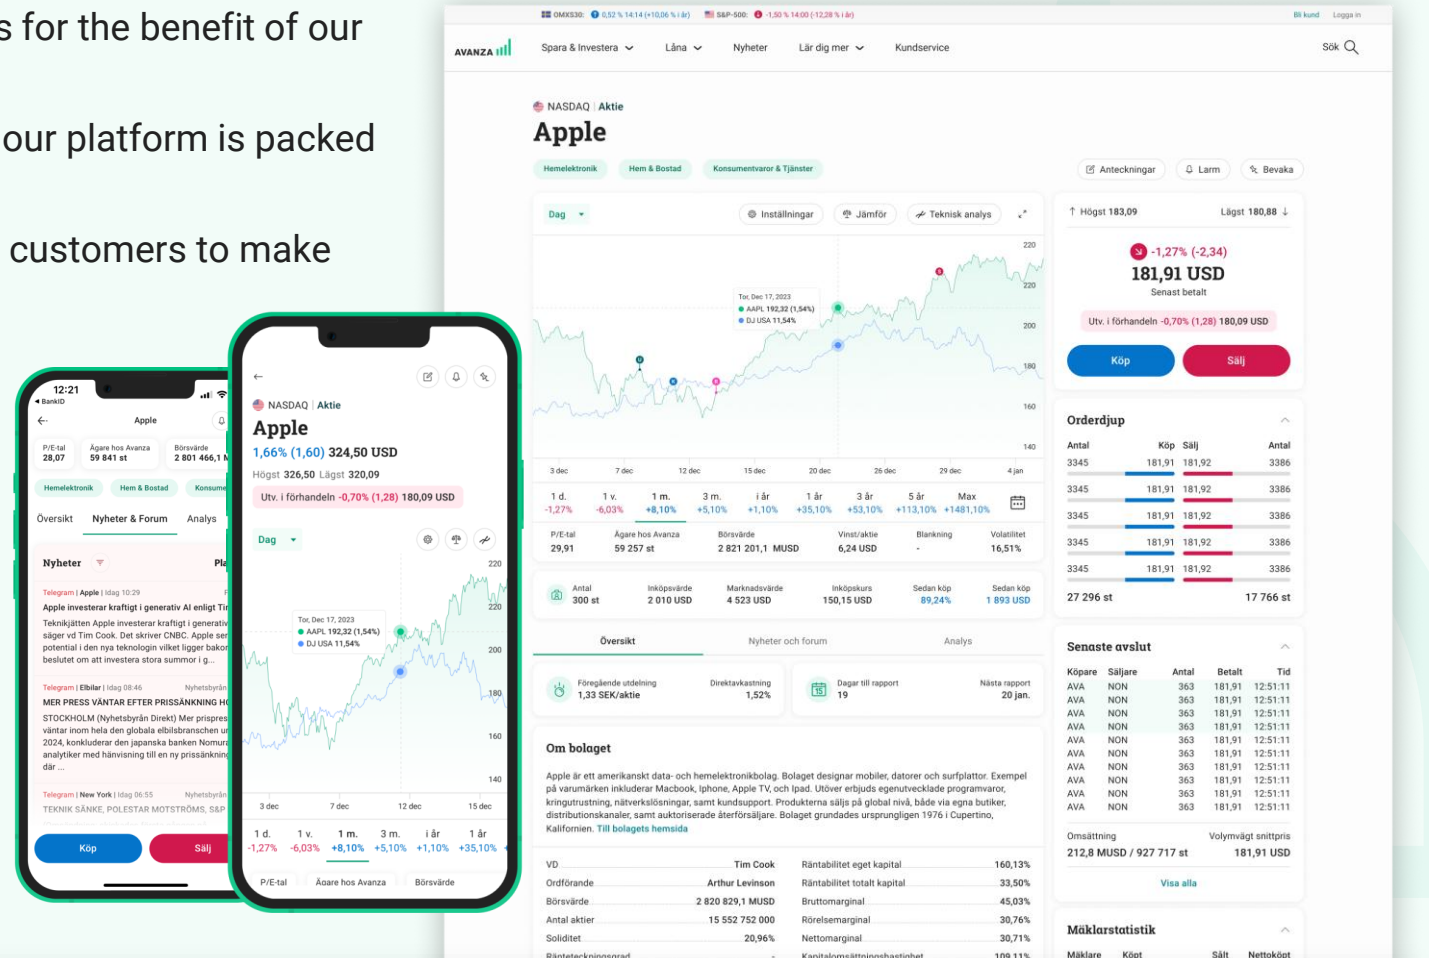

Our customer experience is extremely quick, and our platform is packed with real-time data.

The key is to create an experience empowers our customers to make informed investment decisions.

We collect customer data systematically – no one else in the industry has as much data and knowledge about retail savings and investments as Avanza.

We have a well-developed design system that allows us to maintain consistency in our product and roll out design changes within minutes.

During the past year, we have taken major steps to make our services accessible for customers with disabilities.

# A diversified customer base of over 2 million

*Our customers have different types of behaviours and needs – and our offering includes something for everyone*

## **Novice**

*Risk-averse, is not active and wants everything to run smoothly with minimal effort*

## **Save**

*Takes an interest in their economy, but needs some help and would like to learn more*

## **Invest**

*Very interested in savings and has a well thought out long-term strategy for their investments*

## **Trade**

*Professional trader, very active and makes both long- and short-term investments*

## **For fun**

*Sees investing as a hobby, makes decisions based on gut feeling or recommendations and hopes for "skyrockets"*

# Customer growth drives net inflow

# Market share of 11,4% rolling 12M of net savings on the Swedish savings market<sup>1)</sup>

The net inflow to Avanza is seasonally higher in Q1 and lower in Q2. In Q2 this is due to dividends, tax refunds, higher pension premiums and partly annual payments to contractual pensions, which are not included in Avanza's customer offering.

<sup>1)</sup> SCB has revised the statistics for the entire time series in Q3 2024, with additional adjustments in Q4 2024, Q1 2025 and in Q4 2025. As a result, historical figures have been updated.

# Significant growth potential with 8.3% market share of the Swedish savings market

- The Swedish savings market: SEK 13,000 billion<sup>2)</sup>
- Annual market growth of on average 7% last ten years<sup>2)</sup>

# Potential in both existing and new customers

- Increasing share of wallet in existing customer base
- Continue to attract young people and keep them happy as wealth grows by age
- The broad offering makes us relevant for larger groups of people
- Increased savings among women
- Regulation and digitalisation have decreased friction, created more awareness and simplified self-directed financial management
- More reasons for people to take responsibility for their own savings as public pension and welfare systems are covering fewer needs
- Facilitate and inspire sustainable savings to attract a broader audience

# One of the fastest growing pension companies in Sweden

- Competitiveness with broad investment opportunities and no annual insurance fees
- The strong offer an advantage when the transfer right is improved to the benefit of the consumer

<sup>1)</sup> The occupational pension market can be divided into traditional life and unit-linked insurance. Traditional life stands for 60 per cent and unit-linked for around 40 per cent. Avanza is active within unit-linked insurance outside of collectively agreed occupational pensions, which at the end of 2024 was valued at SEK 1,011 billion. The figures are published with a lag.

# Enabling customers to apply for mortgages from various external lenders

- Important part of customers' personal finances
- Frees up savings capital with other banks

# Prepared to capture opportunities in a digitalised world...

Increasing digitalisation is leading to a more agile financial market.

Data from different financial players can be easily shared with third parties by customer consent with the hope to make it easier for consumers to compare different products and switch to new providers.

A more mobile occupational pension market.

Increased transparency and consumer protection.

To summarise

# Our targets for a sustainable future

## Net zero emissions

Avanza's goal is to reduce scope 1, 2 and 3 emissions by 50 percent by 2030 and to achieve net zero emissions of greenhouse gases as soon as possible, by 2045 the latest. This includes emissions generated by the bank itself from energy consumption and business travels, as well as indirect emissions such as the investments made by our fund company.

## Strengthen the sustainability rating in our customers' investments

We are continuously improving our decision tools, making it easier for our customers to make sustainable investments. Our goal is lower sustainability risk in our customers portfolios.

## Increase gender equality in savings

The share of women on Avanza's platform today is 40 per cent. The share of savings capital they hold is only 27 per cent.

## Comments

Regarding technology investments, our philosophy is to expense as much as possible through the income statement. Our aim is to maintain the balance sheet as clean and simple as possible, and we do not want to postpone costs.

<sup>1)</sup> Reported credit losses are attributable to calculations of expected credit losses according to IFRS9.
