

## August: Monthly statistics

The number of customers at Avanza has during 2021 increased by 287,000, amounting to 24,300 new customers in August. This resulted in 1,567,300 customers at the end of the month. Net inflow in August was SEK 6,110m\*, amounting to SEK 66,800m\* during 2021.

At the end of August, statistics from the Swedish Savings Barometer (Sparbarometern) were published for the second quarter of 2021. Avanza's share of the savings market increased to 6.5 percent. The share of the net inflow was 11.9 percent and for the twelve-month period amounted to 18.2 percent. The net inflow is seasonally lower in the second quarter due to dividends, tax refunds, higher premium pensions and partly annual payments to contractual pensions, which are not included in Avanza's customer offering.

Avanza's share of new lending in the mortgage market during the second quarter amounted to 2.8 percent, including both Avanza's internally financed Superbolån PB and external mortgage volume.

At the same time, statistics from Insurance Sweden (Svensk Försäkring) regarding the second quarter of 2021 show that Avanza's share of the premiums paid to the Swedish life insurance market during the last twelve-month period was 12.9 percent. This makes Avanza the largest player in Sweden in terms of premiums paid for pension and life insurance exposed to competition (refers to both occupational pension and endowment insurance).
