

October: Monthly statistics*

The number of customers at Avanza has during 2022 increased by 107,300, amounting to 3,420 new customers in October. This resulted in 1,767,400 customers at the end of the month. As a result of an insurance portfolio transfer to Futur Pension, the number of customers decreased by 550. More information below.

Net inflow in October was SEK -930m, amounting to SEK 30,100m during 2022. The net inflow in October includes an insurance portfolio transfer of collectively agreed occupational pensions of SEK -940m to Futur Pension. Excluding this transfer, net inflow amounted to SEK 10m, compared to SEK -220m in September. Inflows were stable compared to recent months, while outflows continued to be negatively affected by the market uncertainty and where recent rate hikes led primarily Private Banking customers to withdraw cash from Avanza in favour of savings accounts with higher interest rates. Net inflow from corporate customers was positive during October.

The insurance portfolio transfer to Futur Pension will negatively affect the net inflow by approximately SEK -2,4 billion, of which the remaining approximately SEK -1,5 billion is set to be transferred in November. Avanza has not been active within collectively agreed occupational pensions for the last seven years.
