Corporate governance report

We want to create a better future for millions of people. The key to success is a high level of trust and the most satisfied customers. It is our firm conviction that it is through customer value that we create the best shareholder value.

Avanza's Corporate governance report has been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Code of Corporate Governance (the Code). Avanza Bank Holding AB (publ), hereafter "Avanza", does not deviate from the Code. As a publicly listed Swedish limited liability company, Avanza's operations are also governed by other laws and regulations, including the Swedish Companies Act, Nasdaq's Nordic Main Market Rulebook for Issuers of Shares and the International Financial Reporting Standards (IFRS). The operating subsidiaries are subject to the supervision of the Swedish FSA, which requires strict application of various financial and ethical rules and guidelines based on Swedish and European law and the Swedish Securities Markets Association's guidelines.

Avanza is driven by a strong customer focus and ambition to provide a world-class user experience and customer service. We believe our offer must stand the test of time. We do not offer investment advice and instead inspire and educate customers to make informed savings and investment decisions. Our promise is that customers will have more money left in their pockets with Avanza than with any other bank or pension company. In the long term, what we do benefits the Swedish savings market and the industry's development, which in turn has a positive effect on society as a whole. From a societal and sustainability perspective we also promote sustainable investments. This is done by facilitating sustainable choices and by educating and challenging. An important part of this work is a sustainable organisation with thorough oversight and control. We work actively to increase gender equality and diversity.

To achieve our vision and promote a better savings market in the long term, we have to maintain a dialogue with and listen to our stakeholders. We have to earn their trust every day and ideally surpass their highest expectations. These stakeholders include customers, employees, owners, partners, media, suppliers, authorities and legislators, all of whom affect and are affected by our operations.

A. Ownership and voting rights

The share capital consists of one class of shares. All shares confer the same rights. There are no limitations on the right to transfer shares or how many votes a shareholder may cast. The share is listed on Nasdaq Stockholm's Large Cap list. The share capital at the end of 2022 amounted to SEK 78,309,513.50, represented by 156,619,027 shares and votes. The largest shareholders are represented on the Nomination Committee and in the nomination process for the election of Board members and the auditor; see below. Avanza has three outstanding warrant programmes comprising warrants with the right to subscribe for 4,650,000 new shares with a maximum dilution of approximately 2.9 per cent. Of the total number of outstanding warrants, approximately 53 per cent had been transferred to employees at year-end. An additional incentive plan was established by the AGM 2021 comprising a total of 1,200,000 warrants which cannot be transferred until 2023, as the existing incentive plans expire. For further information on the Avanza share, see pages 42–43 and Note 29 Equity.

B. Nomination process for election of Board members and auditor

The AGM 2020 established the nomination process for the election of Board members and the auditor as well as the appointment of a Nomination Committee. The principles for the nomination process apply until further notice.

The names of the Nomination Committee's members, and the shareholders they represent, were made public on 29 September 2022, more than six months before the date of the AGM 2023. The Nomination Committee consists of one representative from each of the four largest shareholders wishing to appoint a representative, based on ownership interests known immediately before the announcement. The Nomination Committee is the shareholders' governing body with the sole purpose to prepare the AGM's resolutions on election, and directors as well as auditors' fees.

The Nomination Committee is mandated to serve until a new committee is appointed. In accordance with the nomination process, the Chairman of the Committee is the member representing the largest shareholder, unless the Nomination Committee has agreed otherwise. A shareholder who after the announcement is no longer among the four largest shareholders must make their seat available in favour of the shareholder who became one of the four largest. Marginal changes do not have to be considered. Shareholders that have appointed a representative to the Committee have the right to dismiss this representative and appoint a replacement. All changes to the composition of the Committee shall be publically announced.

The Nomination Committee's proposals for resolution leading up to the AGM include:

- Chairman of the Meeting
- Board of Directors and Chairman of the Board
- Board fees
- auditor and fees for the Company's auditors
- if appropriate, changes in the procedure for appointing the Nomination Committee

Composition of the Nomination Committee

The Nomination Committee's proposal to the Board of Directors is presented in its entirety to ensure that the composition of the Board meets competence, diversity and independence requirements. Shareholders with views on the Board's composition or proposals for new members shall submit them to the Nomination Committee well in advance of the AGM. Nomination proposals are reviewed as part of the nomination process. Proposals shall be sent to valberedningen@avanza.se or to:

Avanza Bank Holding AB F.A.O.: Valberedningen Box 1399 111 93 Stockholm

Although Committee members are not remunerated for their work, Avanza refunds reasonable costs deemed necessary for them to undertake their duties. The Committee has agreed that Erik Törnberg, Creades AB, will remain in the position of Chairman of the Committee. Erik Törnberg is also a member of the board of the wholly owned subsidiary Avanza Funds AB. While this does not deviate from point 2.4 of the Code, Avanza is disclosing the situation for the sake of transparency.

The Nomination Committee's proposal, as well as a reasoned opinion on the proposal and a report on the Committee's work, are published in conjunction with the notice of the AGM. When preparing its proposal for Board fees, the Nomination Committee uses comparisons to companies operating in similar spheres and with similar size and complexity. Proposed fees shall be market rate based on the responsibility and work required and on the contribution the Board can make to the Company's development.

As a diversity policy, the Nomination Committee has applied point 4.1 of the Code. The Nomination Committee's aim in applying the diversity policy has been to achieve an appropriate board composition distinguished by diversity and breadth, and to achieve a gender balance among AGM-elected Board members. In 2022, the Board of Directors consisted of five men and four women. For more information, see section F. Board of Directors.

The Nomination Committee held 2 meetings in 2022, at which all members were present. Apart from the meetings, the committe also maintained regular contact. The Nomination Committee also conducted an evaluation of the Board and its work, which included the Board's size, composition, industry experience and competence.

C. Annual General Meeting (AGM)

Shareholders exercise influence over Avanza through participation in the AGM, Avanza's most senior decision-making body. In accordance with the Articles of Association, the AGM elects the Company's Board members and appoints Avanza's auditor. Additionally, decisions are taken on adoption of the income statement and balance sheet, consolidated income statement and consolidated balance sheet, dividends and other profit distributions, discharge from liability of the members of the Board and the CEO, the nomination procedure, remuneration guidelines for senior management, and other important issues.

To exercise their vote at the AGM, shareholders usually have to be present at the meeting in person or by proxy. Additionally, they must be registered in their own name in the share register on the specified date prior to the meeting and have notified Avanza of their participation as set out in the notice.

The AGM's resolutions normally pass with a simple majority, i.e. more than half of the total number of votes cast, unless otherwise specified by the Swedish Companies Act. Shareholders wishing to add a matter to the agenda at the AGM may submit a written request. Such requests must be received by the date indicated on Avanza's website, which for the AGM 2023 was 9 February 2023. Requests are sent to:

Avanza Bank Holding AB F.A.O: Bolagsjuridik Box 1399 111 93 Stockholm

The date and time of the next AGM, and information on how shareholders can exercise their right of initiative, are posted on avanza.se/ir under the Governance section at the latest in conjunction with the publication of the third interim report of the year preceding the AGM. Minutes and supporting documentation from previous AGMs are also available in the same section.

Extraordinary General Meetings may be held if the Board deems necessary or if the Company's auditor or a shareholder holding at least ten per cent of the shares requests such a meeting.

At Avanza's AGM on 31 March 2022, 302 shareholders were represented with a holding corresponding to approximately 58 per cent of the total number of shares and votes.

Aside from the annually recurring matters, the following resolutions were adopted by the AGM 2022:

- amendment to the Articles of Association whereby the Board of Directors shall consist of no less than five (5) and no more than ten (10) members elected by the AGM
- authorisation for the Board to acquire own shares

D. External auditor

The external auditor is an independent reviewer of Avanza's financial statements and determines whether they in all material respects are accurate and provide a fair presentation of the Company and its financial position and results.

The AGM 2022 reelected KPMG AB as the auditor, with Mårten Asplund as Auditor-in-Charge, until the conclusion of AGM 2023.

The auditor presents the AGM with an audit report on Avanza's annual report and consolidated financial statements, the appropriation of the Company's profit or treatment of its loss, and the administration of the Board and the CEO, and offers an opinion on the corporate governance report. In addition, the auditor submits reports on day-to-day management and internal control, in writing as well as orally to Avanza's Board and/or Audit Committee at least twice a year and delivers an audit report on the annual accounts and annual report.

The audit is conducted in accordance with the International Standards on Auditing (ISA), issued by the International Federation of Accountants (IFAC). The auditor's fees are paid based on approved invoices. In 2022, fees paid to KPMG for auditing duties totalled SEK 3,142 thousand. Total remuneration paid is shown in Note 10 Auditors' fees and reimbursement of expenses.

Avanza has internal guidelines for suitability assessments of the CEO, other members of Group Management, the heads of control functions and those responsible for the Group's AML work. The assessments are made in conjunction with new appointments and followed up at least once a year as regards the CEO and at least every two years as regards other members of Group Management and the heads of control functions. Remuneration to Group Management

Group Management's remuneration shall reflect each person's experience, competence and performance. Remuneration comprises a fixed salary and the opportunity to purchase warrants in the incentive programme for all employees resolved by the AGM.

Members of Group Management have acquired warrants on prevailing market terms in accordance with the warrant programme. In contrast to other employees, Avanza's Group Management receives financing to acquire warrants for an annual one-time payment of 10 per cent of their base salary. The financing is contingent on the amount being invested in Avanza's incentive programmes and may be subject to repayment if pre-emptive rights are exercised to purchase warrants in accordance with the pre-emptive rights agreement for the warrants.

Corporate culture and policies

Avanza's corporate culture is based on a vision to create a better future for millions of people. The key is that what we do will create value for our customers. The corporate culture is characterised by collaboration, humility and an aim to constantly challenge ourselves to think differently. Decision-making channels are short and there is room for different opinions.

Avanza has a Group-wide policy on diversity and equality, which can be found at avanza.se/ir. For Avanza, diversity and equality mean utilising everyone's knowledge, experience and views to enrich, create dynamism and influence every part of the Company. The policy also ensures that all employees are treated fairly and that there is no discrimination. The CEO has overarching responsibility for diversity and gender equality. The work is done systematically with updated documentation, analysis, active measures, evaluations and follow-ups. Equality issues are tracked through employee surveys. Parity between women and men is measured in Group Management and among managers with personnel responsibility. Avanza's management at the end of 2022 was comprised of 5 women and 5 men. Among managers, 47 per cent are women.

Occupational health and safety is a priority. Healthy employees make for a better and more effective organisation and create shareholder value. The overarching goal of our health and safety work is to create and maintain an environment where employees have the right opportunities given their position and goals. Avanza has a dedicated committee that deals with the overall structure for systematic occupational health and safety work and equality issues.

Avanza has a high recommendation rate among employees with an eNPS score of 58.

For more information, see pages 36-40.

Regulatory training

Avanza has a code of conduct that includes our ethical guidelines. The code applies to all employees and provides guidance on how we build long-term relationships by describing the responsibility that comes with being an employee. The code contains Avanza's stance on business ethics and reporting routines as well as how we expect employees to act in ethical dilemmas.

Acting ethically and taking measures to prevent unethical or illegal behaviour is an important part of Avanza's culture. Employees are encouraged to report actions that could be considered unethical or illegal. Incoming reports are handled confidentially. Whistleblowers can contact either their immediate superior or the Head of Compliance, or use an external whistleblowing tool where the employee can remain anonymous. All reporting through the external tool is encrypted and shall ensure the anonymity of the person who filed the report. Reports can also be submitted to HR, the CEO or the Chairman of the Board. Avanza has whistleblowing guidelines adopted by the Board. A whistleblower who reports legitimate concerns about illegal or unethical behaviour have Avanza's full support and are not at risk of losing their job or facing any form of reprisal as a result of their actions.

All new employees are introduced to current laws, which is followed up on a regular basis to ensure that the employees are kept updated on regulations and any changes. Additionally, individual departments arrange separate, in-depth training in specific areas. All employees undergo regular web-based training in GDPR, security, anti-money laundering and counter-terrorist financing, and anti-corruption.

As a company in the financial market, Avanza has an obligation to help maintain trust in the market. Avanza abides by Sweden's anti-corruption laws and practices and under no circumstances accepts active or passive bribery or other illegal payments. Avanza works continuously to fight corruption and has an anti-bribery policy that complies with Swedish law. The policy and Avanza's Code of Conduct are included in the mandatory compliance training for new employees and can be found at Avanza.se/ir. Supplemental training is provided every three years for all employees. Compliance training includes the work being done in anti-money laundering and terrorist financing, central laws and rules for the regulated operations of Group companies, and other key guidelines and policies. Neither Avanza nor any of Avanza's employees have been convicted of bribery or other crimes related to corruption. Avanza's internal regulations are easily available to all employees on the internal web. All employees of Avanza have a responsibility to understand and stay updated on the laws and internal rules that affect and are relevant to their work. Avanza is also affiliated with Swedsec, which sets proficiency requirements, issues licenses and requires compliance of those who work as specialists with mortgages and in management or control functions. All of these approximately 130 employees were Swedsec certified as of year end. Licenced employees undergo annual knowledge updates on financial services.

F. Board of Directors

The Board of Directors sets forth the business framework, appoints the CEO and exercises control over the Company's management. The Board's duty is to manage the Group's affairs in the best interests of Avanza and its shareholders in order to create the best conditions for a sustainable business. The duties of the Board are governed by the Swedish Companies Act, the Code and the formal plan that the Board has established for its work.

The Board takes decisions on matters concerning Avanza's strategic direction, major investments, acquisitions and divestments. Furthermore, each Group company's board establishes policies and guidelines, as well as the terms of reference for the CEO. Where applicable, subsidiaries establish work plans for the control functions Risk Management, Compliance, Internal Audit and the Actuarial function.

The AGM 2022 re-elected all previously elected Board members except Viktor Fritzén, who declined re-election. Additionally, Linda Hellström and Sofia Sundström were elected as new members in accordance with the Nomination Committee's proposal. Board member Mattias Miksche decided shortly after the AGM 2022 to resign from the Board for personal reasons. According to the Articles of Association, the Board shall consist of no fewer than five and no more than ten members. Avanza's Board consisted in 2022, as of Mattias Miksche's resignation shortly after the AGM, of nine AGM-elected members and no deputies, who elected until the next AGM. The Chairman of the Board is Sven Hagströmer. The Board held its first meeting following election on 31 March 2022.

Diversity and suitability

Attendance at recorded Board meetings 2022

The guidelines on suitability assessments set forth how Avanza evaluates appointees for their assignments, how conflicts of interest are addressed and how a suitably diverse board is achieved. The Board's composition of individuals of varying age, with a goal of gender parity, and with varying educational and professional backgrounds will help to ensure that the Board collectively has the ability to critically review and understand relevant regulations and can identify the risks caused and faced by the Company. New members are also evaluated in terms of the number of executive and/or non-executive positions they hold, to ensure they have the time needed for the Board's work. These assessments are made in conjunction with new appointments and followed up at least annually. Based on the suitability assessments, annual training plans are then formulated. Background checks were made of all Board members in 2022. Information on the Board's composition, age and background is shown on pages 58–59.

The boards of the subsidiaries Avanza Bank AB and Försäkringsaktiebolaget Avanza Pension follow their own guidelines on suitability assessments adapted to the requirements of a suitable composition and collective competence for the board of each company. Subsidiary boards consist of members with varying experience and education, which contributes to a suitable composition of competences for the operation.

Work of the Board in 2022

During the year, the Board held a total of 16 meetings, including 12 regular meetings, 1 inaugural meeting, 1 extra and 2 by telephone/mail. Board meetings by telephone/mail addressed decisions relating to Avanza's incentive scheme.

At scheduled meetings, the following are discussed:

- financial reporting
- operational reporting
- reporting by the Board's committees
- credit reporting for the subsidiary Avanza Bank

The control functions Risk Management, Internal Audit and Compliance report quarterly.

In addition to the recurring items on the agenda, the Board addressed the matters described in the illustration on the previous page. The Board also focused on the Group's implementation of and alignment with new and amended regulations affecting various parts of its operations.

The Board also worked on and participated in strategic business planning in order to continuously adapt and improve Avanza's customer offering.

At the end of each calendar year, an evaluation is undertaken to improve the Board's work procedures and competence. The evaluation is conducted by the Board members evaluating their own and the Board's collective competence as well as the Board's work and work procedures. The results are communicated to the Nomination Committee and compiled in a report, which then forms the basis for any changes or training.

The Board of Directors' competence training

Each year the Board establishes a training plan to give members a better understanding of various areas, relevant rules and risks that affect the business as well as new products and services Avanza is launching. Board members also visit various parts of Avanza on their own initiative to better familiarise themselves with specific areas. The Board's training needs are reviewed and specific measures are taken as needed to provide information and improve competence in special areas. In 2022, the Board underwent training focused on regulations within GDPR, lending, information and cyber security, capital adequacy, sustainability, service contracts with cloud service providers, antimoney laundering and counter-terrorism financing, and insurance operations. New Board members receive introductory training to gain an overview of the Group and its operations and an understanding of Avanza's values and culture.

Formal work plan of the Board of Directors

The Board follows a formal work plan it adopts on an annual basis, which regulates the division of duties, decision-making, signatories, meeting procedures and the Chairman's duties. It also covers the Board's responsibilities and duties as well as how to identify and manage potential conflicts of interest.

The Board's work follows a plan that meets the Board's information needs and is otherwise governed by established procedures for dividing duties between the Board and the CEO. Additionally, the Company's auditor presents the audit and observations to the Board. The Company's auditor attended and reported to the Board at 1 Board meeting as well as attended 6 of the Risk, Capital and Audit Committee's meetings in 2022. Company employees participate in the Board's meetings as rapporteurs and secretary.

Remuneration for Board members and attendance at Board meetings

The AGM 2022 resolved to pay annual remuneration of SEK 383,000 each to the Chairman of the Board and Board members Jonas Hagströmer and Magnus Dybeck. The fee paid to other Board members was set at SEK 478,000 each, combined with a recommendation to invest one third of the net fee in shares in Avanza. Additionally, a fee of SEK 56,500 was set for members of Avanza Bank's Credit Committee and SEK 46,000 for members of the Company's Remuneration Committee and IT Committee. For the Risk, Capital and Audit Committee, SEK 234,000 was set for the Chairman and SEK 104,000 to each member. Board members who receive a salary through their employment with the Company are not entitled to Board fees. In 2022, no board members were employed by the company. More information in Note 9, Employees and personnel costs.

Board work requires all members to engage and participate in issues concerning the Company's and the Group's organisation and management of its affairs, establishment of qualitative and quantitative operating goals, and approval of the Company's strategy to achieve these goals. This is in addition to Avanza's long-term financial interests, the risks Avanza and its subsidiaries are and may potentially be exposed to, and the capital required to cover these risks. The duties of the Board are delegated to the committees as described below. On issues that require specific expertise and independence, the Board discusses which of its members are the most qualified to oversee or investigate them. The Board continuously evaluates the competence needs of each committee.

Board members have no individual areas of responsibility beyond this and the committee work specified below.

G. Internal control and risk management

The Avanza Group shall be distinguished by good internal governance, risk management and control, and operate in an ethically responsible and professional manner with clearly defined roles and areas of responsibility. The risk management processes are effective and purposeful and include an independent risk management function with responsibility for governance, monitoring and reporting on the Group's aggregate risks.

As a rule, the subsidiaries apply the same principles for governance, risk management and control at a company-specific level as those at the Group level. Exceptions are made for specific legal or supervisory requirements and, in terms of proportionality, for the subsidiary's operations, scope and/or complexity, and when specific types of risk only exist in a single subsidiary.

Three lines of defence principle

Risk management and risk control in the Group and its subsidiaries are based on the three lines of defence principle. The first line of defence is comprised of the business operations. The second line of defence is comprised of the Risk Management function, Compliance and, for Försäkringsaktiebolaget Avanza Pension, also the Actuarial function, which are independent of each other and independent of other operations. The third line of defence is comprised of Internal Audit, which reports directly to the board of each Group company.

G. Internal control an risk management, Three lines of defence

1. First line of defence – risk management in the business operations

Risk management primarily takes place in the first line of defence, which consists of business and support functions with specific responsibility for each department. Within the Company's regulatory framework are specific frameworks for risk management with policies, guidelines, instructions, risk appetites and limits for each type of risk.

2. Second line of defence

2.1 Risk Management function

An important part of risk management is to promote a sustainable risk culture and risk-taking that never threatens the Company's survival. The culture is derived from the Board's and management's governance and decision-making. Within the framework of the Group's financial capacity, the Board has formulated a risk appetite, which has been further broken down in the form of CEO limits. To ensure that risk-taking stays within the risk appetite and limit structures, risk management and control processes have been put in place to identify, valuate, manage, report and monitor every type of risk that the Company, including its subsidiaries, is exposed to.

Risk control and monitoring are performed in among other ways by limiting and measuring financial risks, self-assessments of non-financial risks, incident reporting and follow-ups, and risk analysis and approval of major changes by the Group functions. The Risk management function provides an overview of the Group's risk exposure and limit utilisation to management on a monthly basis and to the Board on a quarterly basis. In addition the Chief Risk Officer reports directly to the CEO and the Chairman of the Board as needed. The Chief Risk Officer falls directly under the supervision of the CEO.

2.2 Compliance

Compliance verifies that subsidiaries with licensing requirements follow applicable laws, regulations, internal directives and accepted practices. Compliance monitors and regularly assesses whether the measures and routines that Avanza and its subsidiaries have introduced are appropriate and effective. Compliance proposes internal rules, routines and measures that are needed to minimise the risk of non-compliance and to assist the Swedish FSA in its supervisory capacity.

Compliance is also responsible for keeping Avanza's employees informed and educated on the applicable rules for subsidiaries with licensing requirements.

Compliance falls directly under the supervision of the CEO of each subsidiary and reports on a quarterly bases at Board meetings and regularly to Group Management, in addition to reporting directly to the CEO and the Chairman of the Board as needed.

2.3 Actuarial function

The Actuarial function is responsible for formulating and verifying that the actuarial calculations by the subsidiary Försäkringsaktiebolaget Avanza Pension meet established limits, and to assist the Board and the CEO on matters involving methods, calculations and assessments of technical provisions and insurance risks as well as reinsurance protection and other risk reduction techniques.

The Actuarial function is subordinate to the insurance company's CEO. The Actuarial function regularly reports at the board meetings of Försäkringsaktiebolaget Avanza Pension.

3. Third line of defence - Internal Audit

Internal Audit is an independent internal audit function appointed by and directly under the supervision of the respective board of directors within the Group. Internal Audit's work is based on a risk-based audit plan established by each board. The plan is based on a thorough risk analysis and the audit work includes examining and assessing governance and internal control, examining and assessing whether the Company's organisation, governance processes, IT systems, models and routines are appropriate and effective, and examining and regularly evaluating the reliability and quality of the work performed by other control functions. Internal Audit issues recommendations after each review and then regularly follows up to verify that the recommendations have been acted on.

Internal Audit provides internal auditing services to all Group subsidiaries with licensing requirements by having the subsidiaries outsource this function to the Parent Company. The results of the internal audits are reported quarterly, both in writing and orally, at the Board meetings and the Audit Committee as well as to the CEO. Internal Audit also reports on a continuous basis directly to the CEO, the Chairman of the Risk, Capital and Audit Committee and the Chairman of the Board as needed.

Board of Directors' report on internal control over financial reporting

The Board is responsible, under the provisions of the Swedish Companies Act (2005:551), the Swedish Annual Accounts Act (1995:1554) and the Swedish Code of Conduct for Corporate Governance ("the Code"), for internal control for both Avanza and the entire Avanza Group. This description is limited to internal control over financial reporting.

System of internal control and risk management over financial reporting

Internal control over financial reporting is a process, the purpose of which is to ensure compliance with the established principles for internal control and financial reporting, and that the financial reporting is prepared in accordance with laws, regulations, applicable accounting standards and generally accepted accounting principles, as well as all other requirements for companies with transferable securities listed for trade in a regulated market.

Control environment

The keys to Avanza's internal control over financial reporting are the control environment described in this corporate governance report, a clear and transparent organisational structure, the distribution of responsibilities, and governing internal documents such as policies, guidelines and instructions.

Another component of the control environment is risk assessment, i.e. identification and management of risks that can affect financial reporting, as well as the control activities to prevent, identify and rectify errors and discrepancies.

Risk management

Management of risks related to the financial reporting is proactive and emphasises continuous assessments, controls and training. Avanza applies available techniques and methods in a cost-effective manner. Risk management is an integral part of the business operations. Refer to previous page for more information.

Control activities

Control activities are integrated into the financial reporting process. They include both general and more detailed controls, which are designed to prevent, identify and rectify errors and discrepancies. Control activities are formulated and documented at a Company-wide and department level, based on a reasonable level of risk of errors and their impacts. Each department manager has primary responsibility for managing the risks associated with the department's operations and financial reporting processes.

A high level of IT security is also crucial to effective internal control over financial reporting. For this reason, rules and guidelines have been established to ensure the availability, accuracy, confidentiality and traceability of the information in the business systems.

Information and communication

The information and communication channels are designed to promote thoroughness and accuracy in the financial reporting. Governing documents applying to the financial reporting have been made available and known to appropriate employees through the Company's intranet and have been supplemented with relevant routines and process descriptions.

Continuous information, dialogue, training and controls ensure that the employees are aware of and understand the internal regulations. This ensures a high standard of financial reporting. The entire Group applies the same system for financial reporting.

Follow-up

Avanza's Controller function compiles and reports financial and operating data and analyses to department managers, Group Management and the Board. Moreover, the accounting and controller departments actively monitors operating expenses in relation to budgets and forecasts. This work is undertaken in close cooperation with Group Management and managers in the organisation.

The control functions Risk Management, Compliance and Internal Audit monitor compliance with policies, guidelines and instructions. Additionally, Avanza has a Reporting Committee to take responsibility for, discuss and decide on questions concerning regulatory reporting, including new reporting requirements, new and revised reporting templates, and interpretations and assumptions regarding regulations and technical instructions from authorities for the various reports.

The Board receives monthly financial reports, and the financial situation is addressed at every Board meeting. The Board receives quarterly reports from the control functions Risk Management, Compliance and Internal Audit. All of these reports are based on an evaluation of the Group's activities and cover the entire organisation.

The Board also reviews the quarterly financial reports and annual accounts, as well as the observations and conclusions of the external and internal auditors.

The Group's information and communication channels are monitored on a regular basis to ensure they are appropriate for the financial reporting.

Assessment and position on internal audits

Internal Audit's work is based on an audit plan established annually by the Board of each subsidiary. The plan is based on a risk analysis and the work comprises an examination and assessment of whether systems, internal control mechanisms and routines are appropriate and effective. Internal Audit also issues recommendations, controlls that these recommendations are followed and reports in writing at least quarterly to the Board of Directors and the CEO.

The Board decides which areas to assess after reviewing the proposal from Internal Audit.
